

PLUTUS AI

THE COLLECTORS UNFAIR ADVANTAGE

Problem + Opportunity

- X Antiques are a \$B+ market, but valuation is slow, subjective, and fragmented.
- ✓ No mobile solution combines object detection, pricing data, and digital records.

Test Case

Rewind Consignment & Vintage served as our initial field test site, enabling end-to-end validation of PLUTUS AI's scanning, pricing, and archival features.

Partner → Build

25+ real items scanned in-store

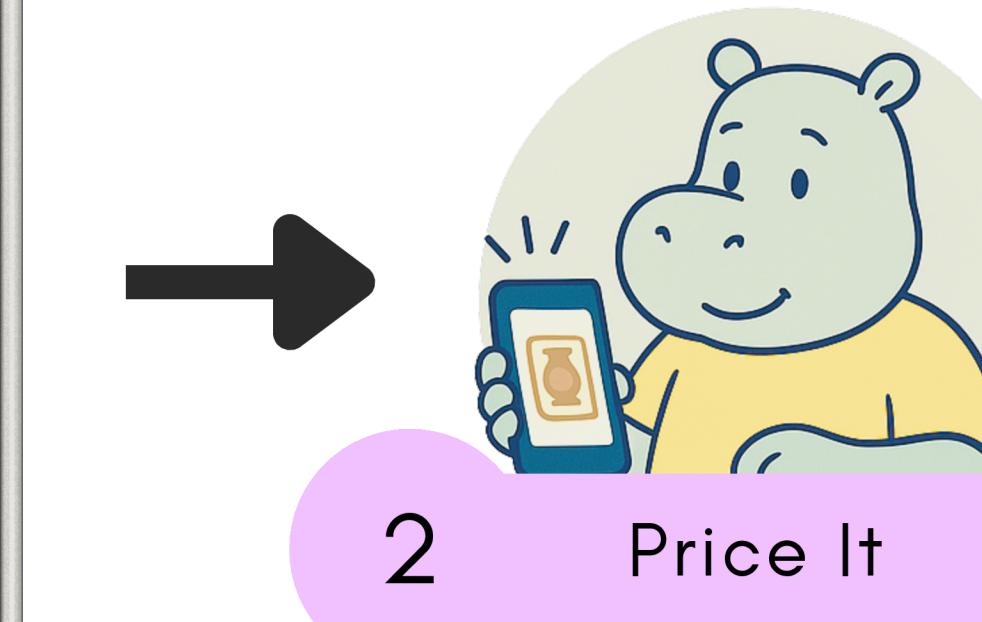

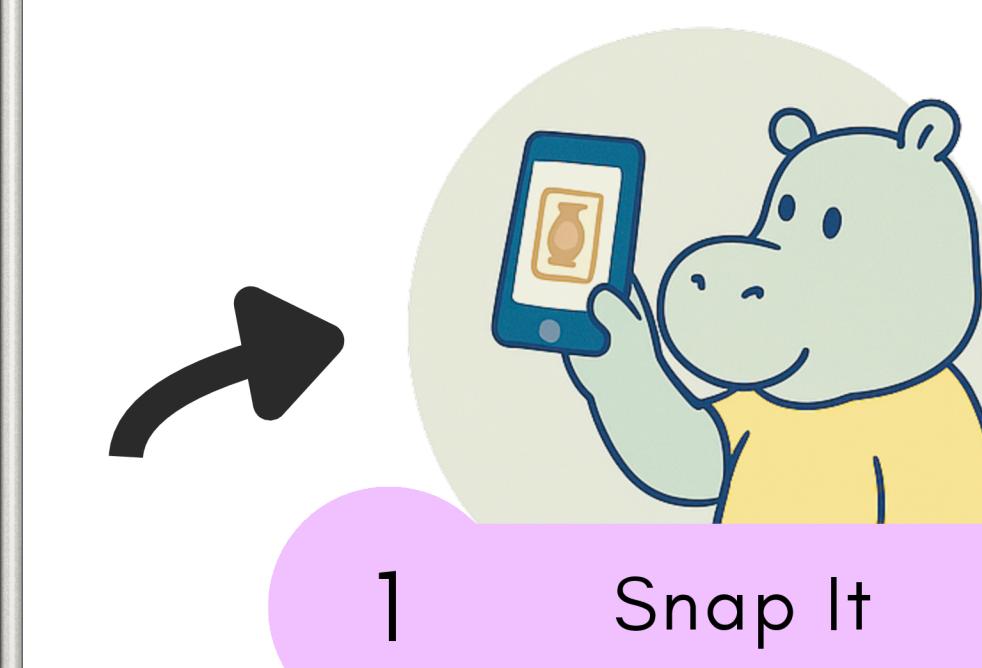

Labeled data, trained models, linked metadata

Test

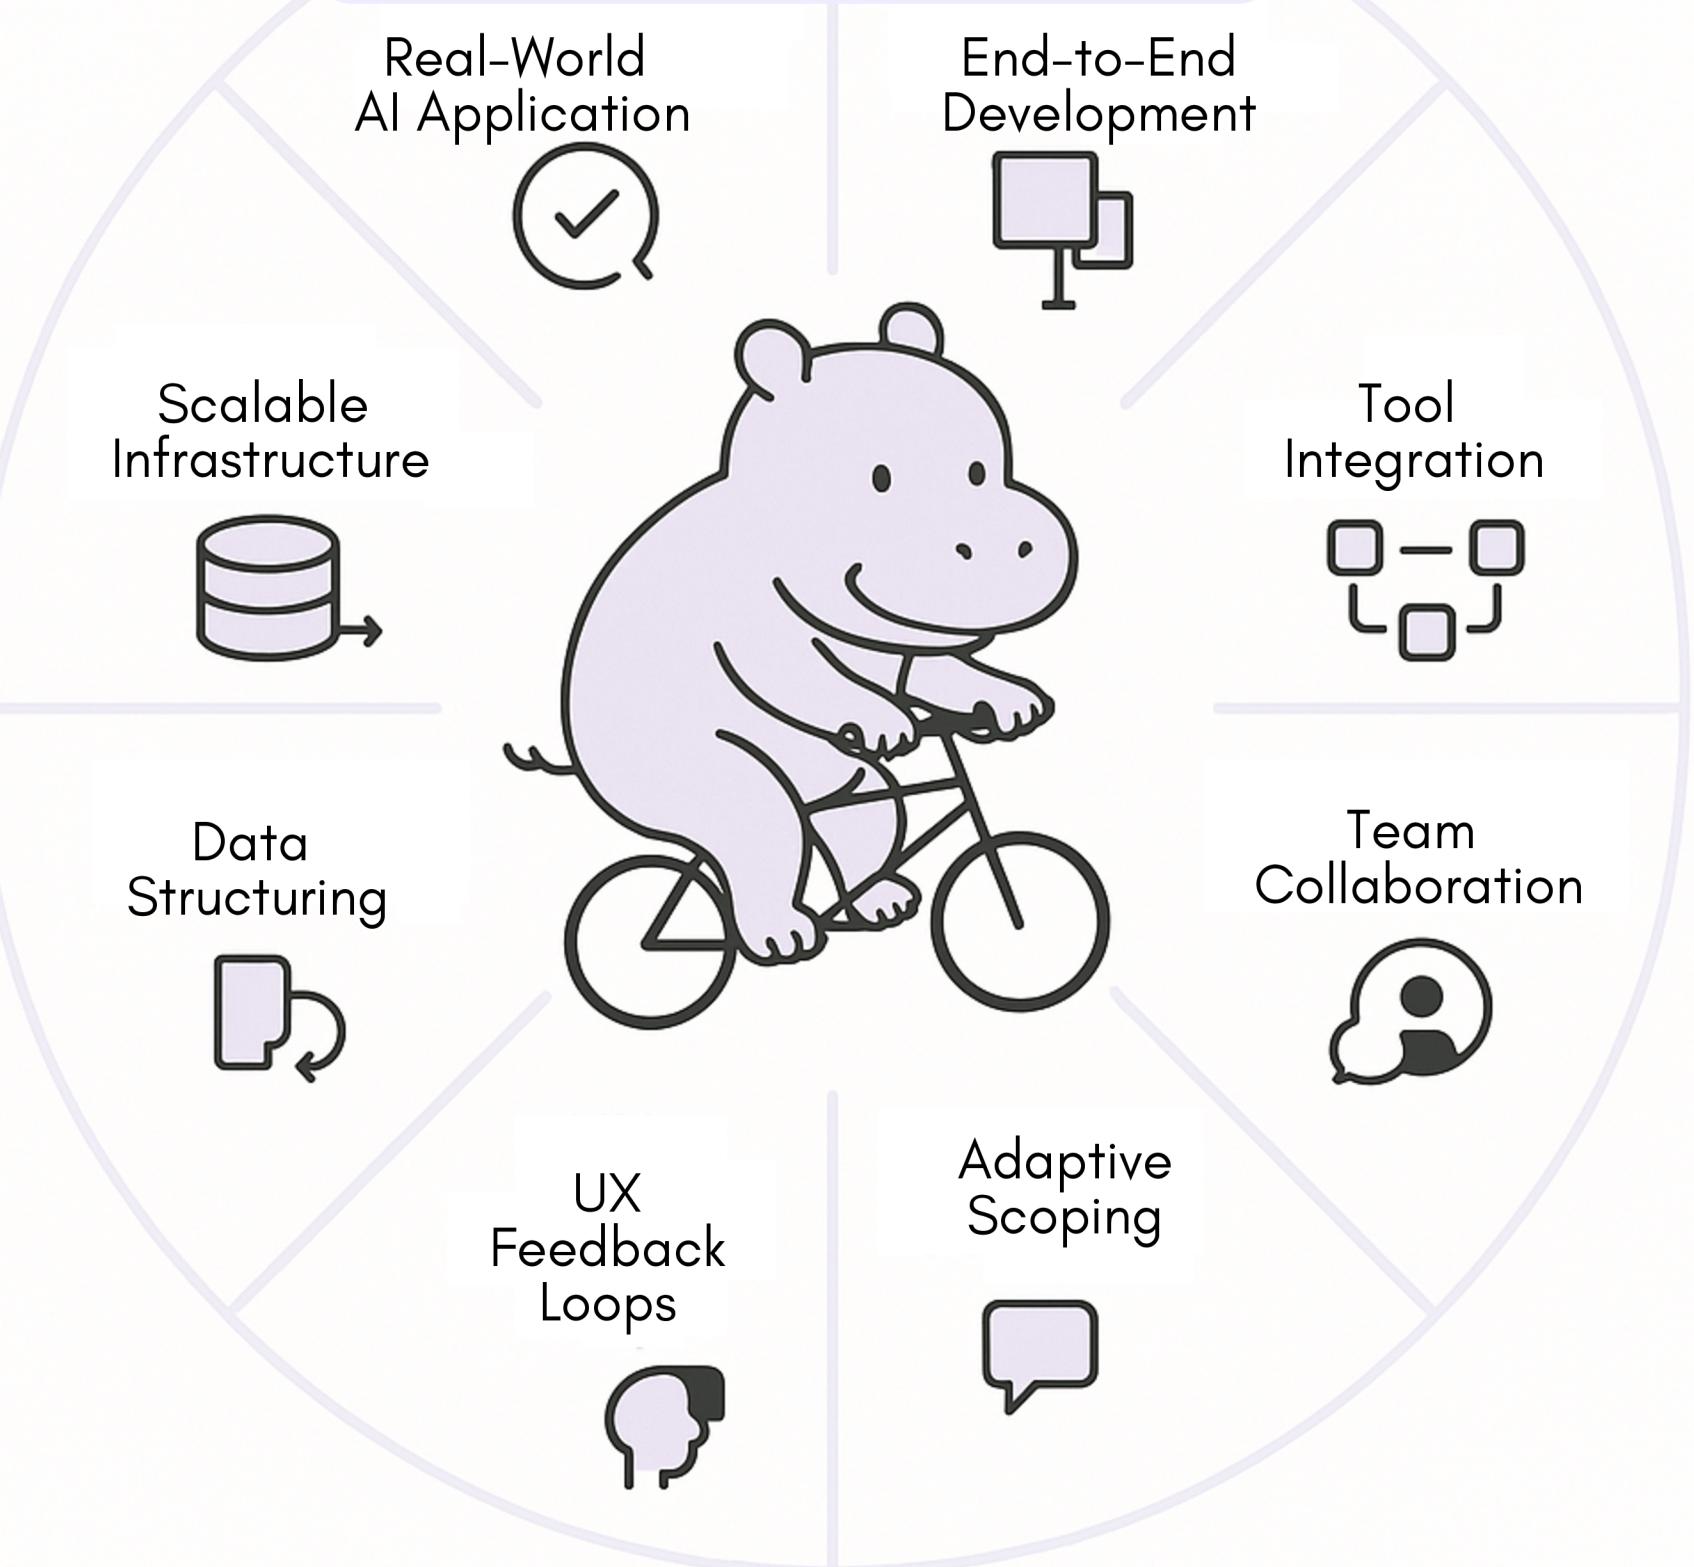

Refined accuracy, solved labeling + data gaps

Live item scans with pricing + insights
